## Projects

- **Online food Ordering System**
  As an experienced professional in the field of online food ordering systems, I have developed a strong foundation in creating efficient and user-friendly platforms. With a track record of successful projects and a deep understanding of the industry, I am well-equipped to contribute to the growth and success of any organization.Proficient in programming languages such as HTML, CSS, JavaScript.
- **Apna Fitness Gym template**
  By using HTML and CSS I had created a gym template in which the customer has various pages like home, about us, contact us static page as template.
- **Food Delivery service Template**
  By using HTML and CSS I had to make a food Ordering template in which the user can order food and add contact detail for food Ordering.
